

102mkII

Consultant's Specification

CONSULTANT'S AND SYSTEM DESIGN SPECIFICATION

The TASCAM 102mkII is a 3U rack-mountable single well cassette deck utilizing a two-head mechanism for playback and recording. Rear panel inputs and outputs are unbalanced RCA with an input-level control wheel and balance control knob on the front. The cassette offers a single headphone output and Dolby B and C noise reduction with HX Pro Headroom Extension.
